Munich, 1 March 2017

Make your mark on the international edition of the Munich children's newspaper!

Munich's children's newspaper is published four times a year with a print run of 50,000 copies. It is a free newspaper made by children for children. In the Summer Edition of the Munich children's newspaper/ issue #38, which comes out on the 1st of June 2017, instead of just children from Munich, this time children from all over the world will be able to have their say.
How does that work? We've prepared a questionnaire, in which children and young people from many different countries can write, take photos and draw about how they live, what's important to them and what moves them.

So that as many young people as possible can participate, we need your help: Do you know someone from a different country or do you come from one yourself? Does your school have a partnership with a school abroad? Or have you yourself taken part in an exchange?

We would be glad if you fill in the form yourself or if you give us the contact details of a child (and its parents) you know in another country, so that we can send them the questionnaire.

If you know someone or would like to take part yourself, you can contact us:
